

DINESH KUMAR

Full Stack Developer

Chennai, Tamil Nadu • +91 8608275600 • dinezk333@gmail.com

SUMMARY

Senior Full Stack Engineer with 5+ years of experience building scalable SaaS, fintech, ecommerce, CRM, and CMS applications using PHP (Laravel, CodeIgniter), Python (FastAPI), and React.js. Experienced in private equity and financial services platforms, backend architecture, API development, AI/LLM integrations and application migrations from PHP to Python. Proven ability to lead development teams, optimize system performance, and deliver production-ready solutions in fast-paced environments.

WORK EXPERIENCE

Senior PHP Developer, Vani Financial and Accounting Service Pvt Ltd

2024 – Present

- Working on enterprise SaaS and private equity applications for financial operations and calculations.
- Developed and maintained scalable backend services using PHP, Laravel, CodeIgniter and Python.
- Successfully migrated complex application modules from PHP architecture to Python-based services.
- Integrated AI/LLM-driven product recommendation systems to improve user engagement and business revenue.
- Designed and optimized financial calculation workflows for private equity platforms.
- Led and mentored a team of 5 developers during feature releases and production hotfixes.
- Improved application performance and API response times through backend optimization and query tuning.
- Collaborated with cross-functional teams to deliver scalable and maintainable production solutions.
